

October 10, 2025: On Elon Musk is a Criminal

I am in agreement with the following **BRITISH POLITICIAN** that is SERVING AS **THE LEADER OF THE LIBERAL DEMOCRATS SINCE 2020**.

I am submitting to the **AMERICAN POLITICIANS** that they should **take notice** that **ELON MUSK IS A CRIMINAL**.

Liberal Democrat Leader demands criminal action against Musk for 'X Crimes'

- **Liberal Democrat** leader Sir **Ed Davey** has called for tech billionaire **Elon Musk** to be prosecuted under the Online Safety Act.
- Sir Ed labelled Musk a "criminal" for allegedly allowing his platform to show adverts promoting self-harm.

I am also submitting to the UNITED STATES GOVERNMENT that **ELON MUSK IS VIOLATING INNUMERABLE STATUTES which protect the safety, security and well-being of the citizens and states of the United States of America - and world!**

Here is an example of 'nearly 800 environmental violations' in one project!

## Environment

# Elon Musk's Boring Co. Accused of Nearly 800 Environmental Violations on Las Vegas Project

Nevada could've fined the company more than \$3 million, but regulators are seeking a reduced penalty of \$242,800, citing an "extraordinary number of violations."

Who the fuck is this Nazi Doge 'Bitch'? And why is the American government so deferential to his illegal ways? Elon is part of a Secret Society of losers called Freemasons - they founded the United States of America in a giant deception against the settlers of the time, they rule over our military, and they apparently operate without adhering to any rule of law of any kind.

I have been haunted by these losers since about 2010 when I filed a lawsuit against J. Cheney Mason in Orlando, Florida.

These are real cases of actual and verifiable deference to known infractions.

The Sept. 22 [cease-and-desist letter](#) from the state Bureau of Water Pollution Control alleged **repeated violations of a settlement agreement** that the company had entered into **after being fined five years ago** for discharging groundwater into storm drains without a permit. **That agreement**, signed by a Boring executive in 2022, **was intended to compel the company to comply** with state water pollution laws.

**Instead, state inspectors documented nearly 100 alleged new violations** of the agreement. The letter also accuses the company of **failing to hire** an independent **environmental manager to regularly inspect** its construction sites. State regulators counted **689 missed inspections**.

THESE ARE REPEATED VIOLATIONS AFTER WARNINGS, SETTLEMENTS, AND LACK OF OVERSIGHT!
